

Not the Jet You Had in Mind.
(Better.)

THE CITATIONJET CJ-NEWGEN FROM
JET ALLIANCE INTERNATIONAL

The CitationJet CJ-NewGen from Jet Alliance International

At less than half the cost of new, you get a better jet – in many ways – than it was when it was rolled out. Brand new advanced avionics. A complete OEM-level strip-and-paint. A luxury custom cabin using the latest state-of-the-art materials.

CJ-NewGen could change your thinking about buying a business jet. We've chosen the Cessna CitationJet CJ series as the flagship of the NewGen program because of its dependability, flexibility and affordability, especially suited to those looking for their entry-level business jet.

Birth of a New Generation Jet

Where many in aviation saw a down market, we saw an underserved one: entry-level buyers looking for a jet that would make the most of their budget and cost-justify the investment. So we did what we do best.

We used our international resources to find the best candidate aircraft in the previously-owned CitationJet market. Then we collaborated with the industry's top aircraft refurbishing company, Duncan Aviation, with over 25 years of award-winning refinishing and cabin work. The result: a solution nobody else offers. An even better CJ at a fraction of the price of new.

This Could Be Your CJ-NewGen

You don't need much imagination to see yourself in a CJ-NewGen model. You can actually see yourself in one. Take a seat in this remarkable aircraft at conventions like EBACE and EAA AirVenture Oshkosh or by appointment. Find out where the CJ-NewGen demonstrator is today by visiting our website. See just how new the CJ-NewGen is. New concept. New quality. New affordability.

New on the Outside

Your CJ NewGen will arrive fully detailed with a new paint package carrying a three-year warranty. The aircraft is completely stripped and refinished with high-solids primers and paint in environmentally friendly paint facilities. You'll have the benefit of a professional designer who will monitor every phase until completion.

New on the Inside

Duncan Aviation's artisans design and install your new cabin. Custom upholstery, hand-crafted leathers and new carpets throughout. Thermal and acoustic insulation packages can be included to meet your specifications.

New to the Core

Your CJ-NewGen cockpit looks like a showcase for the latest advances in avionics. We've completely remade the panel with the newest EGPWS, RVSM, TCAS, WAAS, FMS and MFD with weather in the cockpit, to name a few innovations.

Support for the FJ44 powerplant comes straight from the manufacturer, under Williams' TAP Elite program. The highest level of quality assurance and service offered. Williams has been ranked No. 1 in product support for 12 years in a row in the *Pro Pilot* survey, over Pratt & Whitney, GE, Honeywell and Rolls-Royce.

Williams TAP Elite advantages include:

- Hot section inspection and overhaul
- Full warranty on the engines as long as enrolled
- Life-limited components replaced at no charge
- No charge for parts and labor on all recommended and mandatory service bulletins
- Higher resale value on the aircraft

Business at Light Jet Speed

The CitationJet requires no introduction. It made one for itself two decades ago, when this revolutionary series broke the barriers of speed, range and comfort for light corporate jets. A heavy hitter that makes a soft landing on the bottom line.

SPECIFICATIONS

MAXIMUM CRUISE SPEED

383 KTAS (710 km/hr), 33,000 ft (10,058 m), 8,500 lbs (3,856 kg)

CEILING

41,000 ft (12,497 m) maximum certified;
23,000 ft (7,010 m) single engine

AIRSPEED LIMITS

Vmo at sea level to 30,500 ft (9,296 m)—260 KCAS (481 km/hr)
Mmo at 30,500 ft (9,296 m) and above -0.70 Mach (Calibrated)

RATE OF CLIMB

Single engine ————— 868 fpm (264 mpm)
Two engine ————— 3,311 fpm (1,009 mpm)

STALL SPEED

82 knots CAS (152 km/hr) in landing configuration
at 9,700 lbs (4,400 kg)

PRESSURIZATION

Nominal pressure differential is 8.5 psi

RANGE

1,350 nautical miles (2,500 km) with full fuel, and 45-minute reserves, maximum takeoff weight

ENGINE

Williams-Rolls FJ44-1A Turbofan

Takeoff thrust ————— 1,900 lbs (862 kg)

Bypass ratio ————— 3.28

OUTSIDE DIMENSIONS

Wingspan ————— 46.8 ft (14.3 m)

Overall height ————— 13.7 ft (4.18 m)

Overall length ————— 42.6 ft (12.98 m)

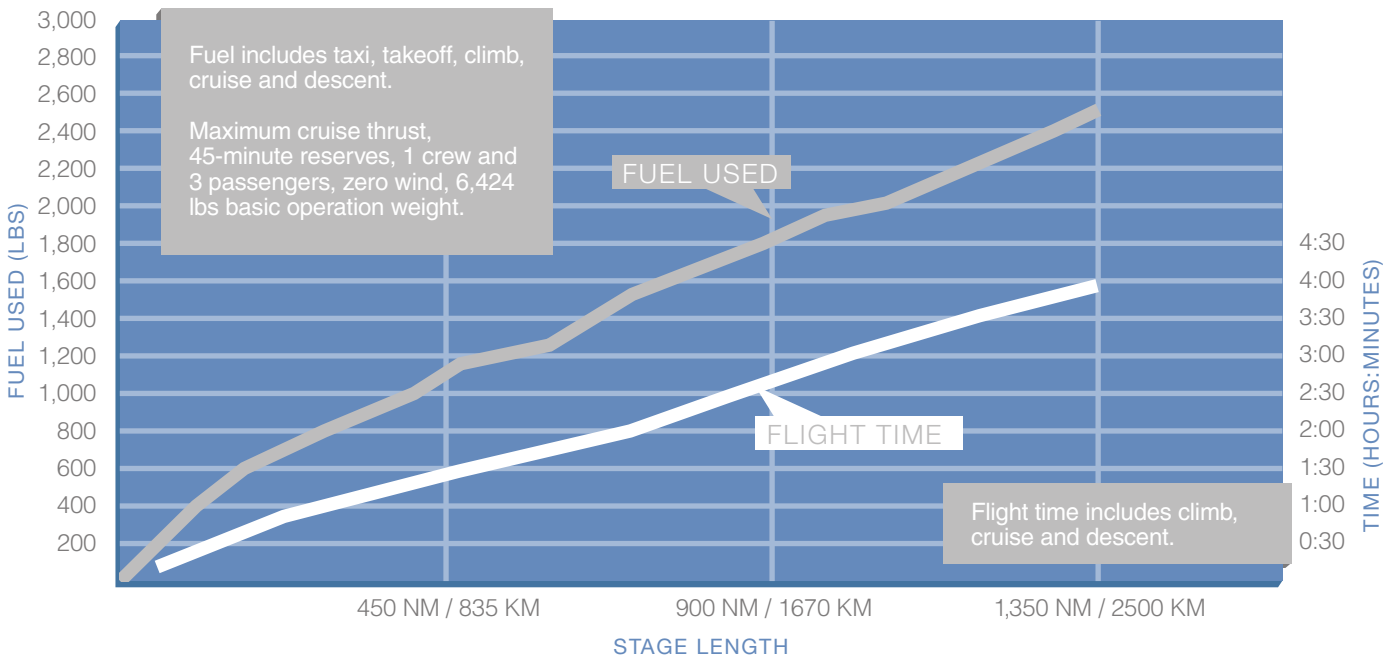

CABIN DIMENSION

Height ————— 4.8 ft (1.46 m)

Width ————— 4.8 ft (1.46 m)

Length (forward pressure bulkhead
to aft pressure bulkhead) ————— 15.7 ft (4.76 m)

FLIGHT PLANNING

PERFORMANCE

TAKEOFF PERFORMANCE (15° FLAPS) Required Field Length per FAR 25

	SEA LEVEL / 59°F	5,000 FT / 41°F	5,000 FT / 81°F
WEIGHT (LBS)	TAKEOFF DISTANCE (FT)		
10,400	3,080	3,830	5,940
10,000	2,740	3,420	5,430
9,000	2,320	2,710	4,175
8,000	2,180	2,450	2,945

Note: Takeoff and landing field lengths are based on level, hard surface, dry runways with no wind.

LANDING PERFORMANCE

WEIGHT (LBS)	DISTANCE (FT)
9,700	2,750
9,500	2,710
9,000	2,620
8,000	2,430
7,000	2,230

Sea Level, Standard Day
Distance Over 50-ft. Obstacle

CLIMB PERFORMANCE

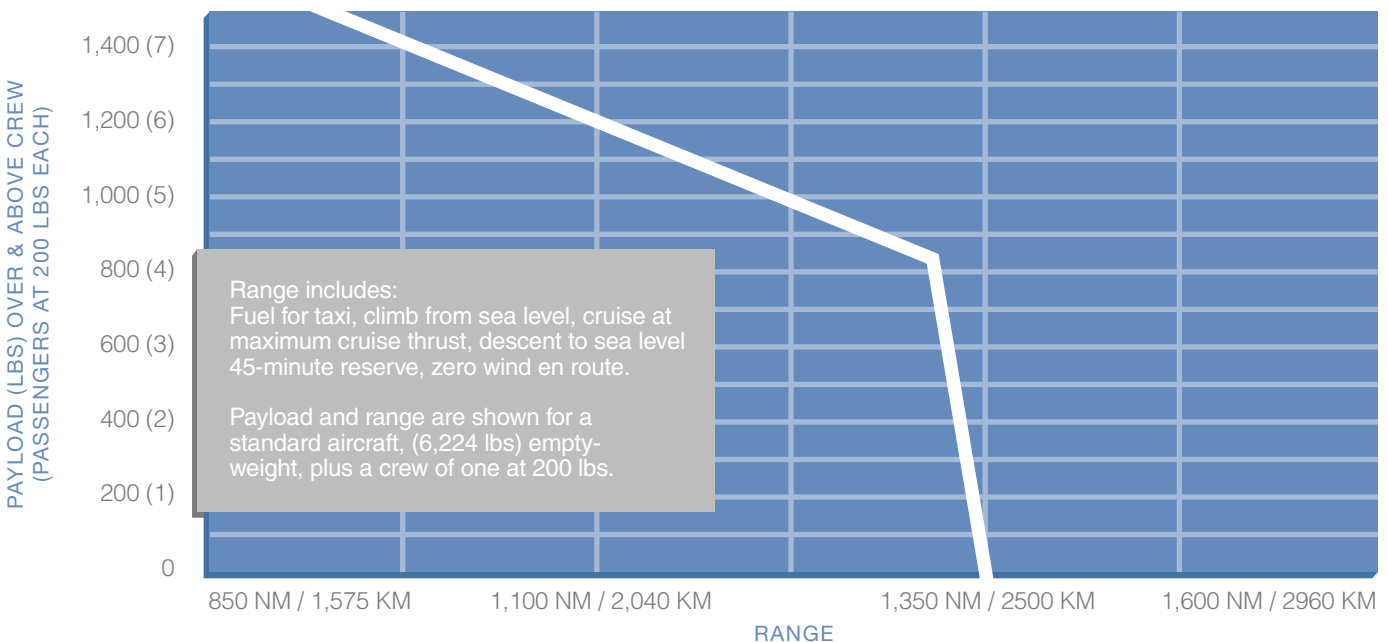

TAKEOFF WEIGHT (LBS)	8,500	9,500	10,400	8,500	9,500	10,400	8,500	9,500	10,400
ALTITUDE (FT)	TIME (MIN)			DISTANCE (NM)			FUEL (LBS)		
25,000	9	10	11	28	33	38	177	206	234
30,000	11	13	15	38	46	55	218	256	294
35,000	15	18	21	54	66	80	266	317	371
39,000	19	24	30	73	94	122	315	387	476
41,000	23	30	43	88	120	178	349	444	597

CRUISE PERFORMANCE*

WEIGHT (LBS)	8,000	9,000	10,000
ALTITUDE (FT)	SPEED (KTAS)/FUEL FLOW (LBS/HR)		
33,000	385/881	380/878	374/874
35,000	384/831	379/827	371/821
37,000	376/745	367/740	357/733
39,000	370/683	359/676	343/666
41,000	362/626	346/617	- / -

*Maximum cruise thrust.

The Taking-Care-of-Business Jet Consultants

So that you can get in a business jet and get on with business, there's Jet Alliance International. A company created to manage every aspect of the business jet transaction, freeing the client from the complexity and expense. Strategically based in Monaco, JAI is one of the most experienced and respected business jet firms in Europe. We got that way by taking care of our clients.

Acquire

Few things are more complex than a trans-global purchase of a business jet. We've done hundreds of them. We're the business jet buyer and seller's first choice because we offer security, an international network, follow-through, and a depth of experience unique in the industry.

We carefully research the best financial options. We know the ins and outs of government regulations and domicile options. Buyers rest assured that they're fully protected and fully compliant. There's no conflict of interest because we don't own or operate aircraft. And we don't represent any manufacturer exclusively. But we do negotiate directly with the manufacturers for the best prices, terms and conditions.

Broker

Our European presence and NARA (National Aircraft Resale Association) membership give our clients direct representation over nine time zones and more than 90% of the market. We're very selective, rather than handling just any aircraft that comes on the market. For every aircraft we sell, we develop a specific market strategy, with an advertising program and direct follow-up throughout our worldwide network.

Market

Market intelligence is key to every transaction. No one's better at it than we are. We know virtually every aircraft that's on the market at any given moment—even aircraft not yet publicized. We're just as careful with researching and targeting your needs, whether we're buying or selling for you. A tailored marketing and advertising program will find the most qualified buyer with the best offer worldwide.

Finance

When finance plays a role in structuring a transaction, we bring to bear our relationships with many of the leading financial institutions specializing in aircraft. You'll have many options. Our international experience and network lets us pick the best candidates and negotiate the best terms worldwide. Contact us for a no-obligation analysis.

Insure

Insurance companies are highly subjective in their pricing. A strong advocate can make a huge difference. We submit a detailed dossier on your behalf, and anticipate questions for a smooth, transparent process and lower prices. Let us provide you with a complete review of your aircraft insurance requirements and options.

Appraise

We cover all the traditional bases, while leveraging up-to-the-minute market knowledge for realistic, reliable technical appraisals. Whether for insurance, purchase or sale, JAI will produce a detailed report on the current value of any corporate jet. Contact us for a proposal at no obligation.

Our services are available individually or in any combination, and come with no-obligation evaluations and proposals. Just ask.

We're experts at taking the uncertainty and unnecessary expense out of the equation. And we proudly and confidently stake our international reputation on every transaction.
